certificate issued in Docket No. CP82–480–000, pursuant to Section 7 of the NGA, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

ANR proposes to install and operate a 2-inch turbine meter at its existing Coldwater Lakes Meter Station in Branch County, Michigan. ANR estimates the cost of installing the meter at \$19,000. It is stated that ANR is installing the meter to accommodate increasing deliveries at the meter station. It is explained that ANR delivered 58,212 Mcf of natural gas at the Coldwater Lakes Meter Station in the 12-month period from July 1, 1995, through June 30, 1996, and 88,713 Mcf in the 12-month period for the following 12-month period, with most of the increase occurring during the winter months.

It is asserted that the volumes to be delivered will be within the certificated entitlements of the customer, Peoples Natural Gas Company (Peoples), and that the gas will be transported under ANR's Part 284 blanket certificate issued in Docket No. CP88–532–000. It is further asserted that the volume of gas delivered to Peoples will not affect ANR's peak day or annual requirements and that deliveries can be made without detriment or disadvantage to ANR's other customers.

Any person or the Commission's staff my, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
